Disfigured For Life

Almost Entire Face a Solid Sore Tried Everything for Weeks But Kept Spreading Until

Thought There Was No Cure. Tried Cuticura. In Few Days Better. In Short Time Cured.

Our little girl's humor commenced with a thy sore on one nostril, but it kept on spread ng till we thought she would never get it ed. For several weeks we tried e thing we could get for the blood, both exterrally and internally, but it kept getting larger all the time, till both nostrils, the upper lip, a part of the lower lip, and up one side to the eye, were a solid sore. We thought there was no are, and that she would be disfigured for life. mally (as a last resort) we tried CUTICURA We used a part of a bottle of the CHICURA RESOLVENT and nearly a box of CHICURA (continent), and followed the direcstely. After a few days it began to look better, and in a short time she was en-tirely well, with no scar or trace of the humor. send you this testimonial, and you may use

That senseless old jingle, "Perrie Merrie Dixie Dominic," was made one of the most attractive parts of the evening's enmotions of the children. The boat song was a really beautiful choral. With excellent time and well-modulated tones the and, waving their arms, showed low the sailors "rowed and rowed over Throughout all their parts the little people of the kindergarten owed by their unconscious simplicity their sense of time and happy interest all what they were doing, that they had come from one of those kindergartens that are in reality child gardens.

PATRIOTIC EXERCISES. The patriotic exercises forming the second part of the entertainment were ced. A long a line of little girls in white dresses and bright sashes march the stage to the music of "Dixie" and "The Star Spangled Banner." They colors, and certainly the soldiers of the country might have been proud of such marching as they accomplished. Around and around the stage they went, sometimes in a body, sometimes in companies; but never with a hitch or stop. Finally, they formed into a semi-circle of three lows with the little students of 3 and 4 Then from out of their ddst appeared for the first time twelve ittle sailor boys in long white trousers and blouses with big blue collars. They took a stand at the front and recited with some admirable poses and gestures, "The Sword of Lee." Together the girls

and boys gave a hearty rendering of "The Star Spangled Banner."

The third part of the programme embraced a number of admirable recitations under the direction of Miss Leahy. Miss Harriet Norvell delighted the audience when she described a scene where an old darky was accused of putting iron with his cotton to increase its weight. "I put ins cotton to increase its weight. Put-iron in it?" he repeated, perfectly aghast at such an accusation; and finally he leaves, declaring it must have been spirits that attempted that disgraceful trick. Miss Lily Becker recited "The Fairles of Caldon Low" with charming grace and and "The May Tennyson, as recited by Miss Mary Leigh Vest, was declared to be one of the chief itractions of the evening.

At the court of the flowers, the little airls of the school made up a beautiful lableau. The Queen Rose wore a crown of roses and held a bouquet of roses al-most as large as herself. Her two pages Her two pages stood on each side of the throne with the maids of honor-four lovely little girls arrying garlands of lilies, pansies, Mondelssohn's flower song. As they all were standing about their queen, an excited messenger, Miss Josephine Sullivan, red and said "There's a marriage in orchard," and then went on to rethe orchard," and then went on to re-cite the marriage of the flowers in a manner which did credit to both her-self and her teacher. Invitations have been issued for a kin-

rgarten reception to be given to-day. On Thursday the year's averages will be given out, after which the friends of the school will be invited to a collation.

THE TOBACCO - TAX. SENATE BILL SECTIONS WITH RE-

THE IMMUNE REGIMENTS.

Accepetance of Radford Company Urged by Representative Otey-Action in Behalf of Messrs. F. B. Gordon, Heth Tyler and J. R. Branch.

WASHINGTON, D. C., June 8 .- (Special.)-When asked to-day the status of the tobacco tax in the revenue bill, Senator Martin said: "There is a strong disposition to reinsert the retroactive clause, but we are fighting it, and it is difficult to say what will be the result."

So many people wish to know the exact language of the tobacco-tax sections in the Senate bill that I give them, as follows:

"Section 2. That there shall, in lieu of the tax now imposed by law, be levied and collected a tax of 12 cents per pound upon all tobacco and snuff, however prepared, manufactured, and soid, or removed for consumption or sale; and upon cigars and cigarettes which shall be manufactured and sold, or removed for consumption or sale, there shall be levied and collected the following taxes, to be paid by the manufacturer thereof—namely, a tax of \$3.60 per thousand on cigars of all descriptions made of tobacco, or any substitute therefor, and weighing more than three pounds per thousand, and of \$1 per thousand on cigars made of tobacco or any substitute therefor and weighing not more than three pounds per thousand, and at \$1.50 per thousand on cigarettes made of tobacco or any substitute therefor, and weighing more than three pounds per thousand, and \$1.50 per thousand on cigarettes made of tobacco or any substitute therefor, and weighing more than three pounds per thousand; and \$1.50 per thousand on cigarettes made of tobacco or any substitute therefor, and weighing more than three pounds per thousand; provided, that in addition to the quantity of tobacco and snuff, in packages, now authorized by law, there may be packages thereof containing one and three-fourths ounces and three and one-half ounces. bosses many a body and burdens many a mind. You can't enjoy the food you like because you are bilious. You take all sorts of precautions, and yet the bilious attack leaps on you like a tiger from ambush. You know the feeling! The blood seeming on fire with a dull heat; the boring pains in the eyes; the head seeming to open and shut; the horrible nausea. You know the irritability which precedes and the languor that follows the attack. It's miserable, isn't it? Why not cure the trouble? There's a pill that will cure biliousness. Dr. J. C. AYER'S PILLS are an acknowledged specific for this derangement.

A. Swanger, Texarkana, Tex., writes: "For fifteen years I have used Ayer's Pills, and find them very effective in bilious complaints. I have yet to see the case where they have failed to cure."

All the poetry, all the romance, all that is ideal in the wide, wide world, is bound up in that one word: "Mother-hood." A woman's greatest man's greatest happiness, her greatest duty and her greatest priv-ilege is to become the mother of a healthy, happy child. Untold thousands of women fall short of this because of weakness and dis-

manly-selves. Either they live childless lives, or for a brief spell are the mothers of puny, sickly children that bring them only pain, and leave them only sorrow.

The woman who suffers from many self-sickly children that bring them only sorrow.

The woman who suffers from weakness and disease of the distinctly feminine organs is certain to become an invalid. No woman can suffer in this way and be a healthy, happy, amiable wife and a competent mother. Troubles of this nature sap the strength rack the nerves maint lines of strength, rack the nerves, paint lines of suffering upon the face, destroy the temper, make the once bright eyes dull and the once make the once bright eyes unit and the aviva-active brain sluggish, and transform a viva-cious woman into a weak, sickly, invalid. This is all wrong. It is all unnecessary. Dr. Pierce's Favorite Prescription is a mar-

velous medicine for ailing women. It acts directly on the delicate and important organs that bear the burdens of maternity and makes them strong and healthy. It allays inflammation, heals ulceration, soothes pain and tones and builds up the nerves. It banishes the discomforts of the expectant months and makes baby's com-ing easy and almost painless. It guarantees the little new-comer's health and an ample supply of nourishment. Thousands of women have testified to its marvelous merits. An honest dealer will not endeavor to substitute some inferior preparation for the sake of an extra little selfish profit.

"I took Dr. Pierce's Pavorite Prescription previous to confinement," writes Mrs. Corda Culpepper, of Tanks, Cottle Co., Texas, "and never did so well in my life. It is only two weeks and I am able to do my work."

FORD ESTATE DECREE

BE ENTERED TO-DAY, THOUGH CHANGES HAVE BEEN MADE.

CITY WINS THE SHULTZ CASE.

Mandamus Proceedings to Test the Delinquent-Tax Law-Mrs. E. B. Grymes Granted a Divorce-Masonic Ass'n Changes Its Name.

Contrary to expectation the decree dissolving the agreement between the trustees of the Ford estate and Mr. A. J. Ford, and cancelling the life lease held by the latter, was not handed down in that court yesterday. Judge Lamb was occupied all day with a jury case, but the trustees and the officers of the court look for the decree to-day. In the mean time the hotel is under the management of Mr. C. C. Broaddus, appointed by the trustee. As soon as the decree is entered an inventory will be taken of the goods and chattels in the hotel, and the work of renovation will be begun. The hostelry will not be closed, owing to the fact that during the summer season business is invariably slack, but the repairs will be extensive and thorough for all that.

The action of the court in this matter is not in the nature of an expulsion or dispossessing of the tenant, but it appears that several weeks ago Mr. Ford addressed a communication to the Court, reciting that from his advanced age and feeble physical condition he was unab onger to actively engage in business, and petitioned the Court to cancel the lease for life, which he held upon the property. It also appears that for some time past Mr. Ford has been merely nominally in terested in the conduct of the hotel, but that he had subleased the property to Mr. W. C. McDowell, who was practically conducting the business on his own account, Mr. Ford, however, being responsible to the trustees under the terms of his lease; and from this he desired to be relieved. Mr. Ford has been a great sufferer from rheumatism for some time past, and he will, as soon as he is able to do so, seek relief and restoration by taking special treatment for his com-

BE INVITED TO MEET HERE.

United Daughters of Confederacy May Assemble in Richmond.

At the meeting of the Daughters of the Confederacy yesterday the chair was occupied by Mrs. N. V. Randolph, the president. The meeting was to consider the invitation which is to be extended to the Inited Daughters of the Confederacy to hold their annual meeting of 1899 in Ri and. Members of the Committee of Invitation are requested to write their letters as soon as possible.

Other important business on hand was the written appeal to the camps throughout the South, begging them to respond at once to the appeal for funds to mark the graves of the Confederate dead buried in northern prison cemeteries. The Daughters of the Confederacy have worked nobly for this cause. Ten dollars was voted for the Hollywood Juniors, to be used for the officers' section in Hollywood. This section has never been in the hands of the Hollywood Memorial Association, they having the ciation, they having the care of the graves of the thousands of Confederate dead. The Junior Association has de-termined to take this up as their work, and would be very glad of any assistance in caring for the section.

There was quite a good attendance at the meeting of the Daughters.

"It appears that, in the case of a Ger-man steamer named Scandia, and a French vessel, the American Consul was applied to for certificates attesting the character and nature as well as the des-tination of their passengers and cargo. It was explained by the local Russian authorities that this extraordinary precaution was taken in the event of the vessels being compelled to put into a Philippine port.

THE SWORD FOR DEWEY.

More Than Fifty Designs Submitted to the Navy Department. (Washington Evening Star.)

The sword to be presented to Admiral Dewey, under the act of Congress providing for this special mark of distinction for his bravery at Manila, will be one of the most beautiful weapons ever made Already the artistic ingenuity of the best swordmakers and jewellers of the coun-try, and, indeed, of the entire world, has been excited, and the Navy Department has already more than fifty designs for the "Dewey sword." They are marked by great beauty of design, some of the blades being wrought with figures emble-matic of the famous battle in Manila bay, while the hilt and scabbard of stee gold, and silver, are studded with jewels and highly-wrought marine emblems, such as Neptunes, dolphins, mermaids, anstans, anchors, etc. Thus far the de partment has not taken up the matter of selecting a design. The board to select a design will probably consist of Acting-Secretary Allen, Senator Lodge, of Mas-sachusetts, and one of the professors of the Annapolis Naval Academy. The same board will decide upon the designs for the medals which Congress has authorized as a mark of special distinction to all of the officers and crews of the ships taking part in the battle of Manila.

CASES BEFORE THE JUSTICE.

Variety of Them Make Up the Day's Uninteresting Docket. Justice John climbed the throne at 9:30 o'clock yesterday morning as usual, and bade Sergeant Thomas to kick off.

Georgie McKenny, Cornelia McKenny, LONDON, June 8.—The Paris correspondent of the Standard says:

"The French and Russian governments and talking sass to each other. Georgie and talking sass to each other. Georgie and talking sass to each other. Georgie and talking sass to each other, deepen and talking sass to each other, and she told her she talked too much, and she was going to get a sticking plaster to put over her mouth. Justice John said he wished she had done it, and, turning to his right bower, said, if that woman can only get up a sticking plaster that will stop women from talking she will make millions a minute. His Honor said he thought the woman ought to have a chance to try if she could get up such an invention, and so dismissed the case. Willie Pleasants was charged with cut-ting Joseph Goddin, and went to the grand jury. Both men are colored.

Henry Page, a dusky, sweet singer, was up for singing to the annoyance of the neighbors, and had to pay \$11.50. Justice John says he doesn't believe in ne-Another thing his Honor does not like for negroes to do is to carry concealed weapons, and especially razors. John Teamster was found to be guilty of this

offence, and was charged \$50 and costs. Richard Cartman, arrested by Officers Johnson and Crump, at the request of Newport News officials on the charge of murder, was turned over to an officer from that place and carried back.

BUILD A BIG BAPTIST TEMPLE.

Dr. Broughton Undertakes Such an Enterprise in Atlanta. Rev. Dr. L. G. Broughton, the wellknown Virginia evangelist and pastor, who recently went to Atlanta to take charge of the Third Baptist church, has put on foot there a plan to build a great

Baptist Temple. The Constitution discussing the matter, says: The Baptist Temple is now an assured fact, and the edifice will be erected during the summer. It will, be the only building of the kind in the city, as it will be designed not only as a place of public worship, but also for the religious gatherings of all denominations which may meet in Atlanta. Connected with the Temple will be reading- and bath-rooms, for the use of the people who have not the means and opportunities to scoure such advantages from institutions which can only be reached by those who are able to pay for them. Dr. L. G. Broughton, paster of the Third Baptist church, with the assistance of members of his church, has taken the matter in hand,

and enough has already been done to make the Temple a certainty. A lot 100 feet square has been purchased at the corner of Lucky and Harris streets, and upon this site the Baptist Temple will be erected.

PLANS FOR THE BUILDING. The plans for the building have been ecured, and in a few weeks the foundations for the building will be laid. The building will cost about \$25,000, but will equal an ordinary building of much greater cost, as there will be no useless ornamentations, but everything will be plain and designed exclusively for com-

As the Temple, while being under the jurisdiction of the Third Baptist congregation, will be used for all religious conventions and big revivals of all der nations, the money will be raised by popular subscriptions. The need of a large hall for gatherings not of a sectarian character has been felt in Atlanta, and large conventions have been too crowded to transact business, as was the case when the Epworth League met to this city. In his lifetime Mr. Henry Grady advocated the erection of such a building as it is now proposed to make the Temple. Those who have the work in hand believe they will meet with no diffi-culty in quickly raising the amount of money needed.

The work will be commenced at once, and if the building cannot be completed

this year, the lower floor will be built and used until the upper floor and audi-torium can be finished. WHAT THE TEMPLE WILL BE The Temple will be 100 feet square. The lower floor will consist of a large school-room, with a seating caps of 1,500, and a reading-room and bath-rooms. The upper floor will be the large

auditorium, with a gailery, and will seat 2.763 people. It will be fitted with folding The building will be of brick, with trim-mings of stone. It is designed to present an outward appearance of what it will be called—a temple.

One reason for the erection of such a

building will be to reach the masses—the people who cannot be induced to attend the large churches, and who are now being only partly reached by the small missions throughout the city. It has been urged that the overcrowding of the Moody Tabernacle is proof sufficient the

urged that the overcrowding of the Moody Tabernacle is proof sufficient that a building such as the Temple will be is greatly needed in Atlanta. The Tabernacle is but a temporary affair.

Dr. Hawthorne, when told that nin cherished dream was about to be realized in Atlanta, exclaimed: "Thank God. I now wish I was once more with the good people of Atlanta. And I ask that I be allowed to preach the first sermon in the Temple." He was promised that he should be the opening sermon when the Temple was completed.

Dr. Broughton has already approaches.

Temple was completed.

Dr. Broughton has already approached a number of people of different religious denominations, and they have given him the greatest encouragement, indorsing the movement and promising their help aud support.
